

PROFILE

Full Stack Developer with hands-on experience in building web applications using React and Django. Passionate about creating scalable and user-friendly solutions, with a strong foundation in frontend and backend development.

SKILLS

Frontend - HTML, CSS, JavaScript, React JS

Backend - Python, Django

Database - MySQL

Tools - Git, VS Code

PROJECTS

- **Django Blog Project** | Developed a dynamic blog web application using the Django framework, implementing features like blog creation, category management, and user authentication. Designed and managed database models for posts, categories, and comments. Built CRUD functionality with clean URL routing and responsive templates. Focused on modular structure and scalable app design.
- **Netflix Clone** | Built a responsive Netflix-inspired web application using HTML, CSS, and JavaScript, replicating core UI/UX features of Netflix. Implemented interactive components like movie carousels, hover effects, and dynamic content display. Focused on modern layout techniques (Flexbox/Grid) for responsive design. Enhanced user experience with smooth transitions and structured component-based styling.
- **Weather Web App** | Developed a weather web app using HTML, CSS, and JavaScript with real-time API integration. Implemented dynamic updates based on city search with basic error handling. Designed a clean, responsive UI displaying key weather data.

INTERNSHIP

Data Analytics with Python
Techritzy Pvt. Ltd, Indore, India

Jan 2024 - Apr 2024

- Analyzed datasets using Python libraries such as Pandas and NumPy to extract insights and support data-driven decision-making. Performed data cleaning, preprocessing, and basic visualization to improve data quality and reporting.
